No Comments: Brushdale's Courage Under Fire call name Smokey. This is a very nice looking Male Small Munsterlander. His NAVHDA N/A scores are average for a dog this age. This dog was examined by the Breed Council in June and no eliminating faults were found. The OFA score is good on this dog. The dog is a firmly built stocky roan male with a slightly short muzzle. He has medium brown eyes and the ear set is low. He has feathering on the ears but leather is showing. His head is a bit blocky in structure but it matches his body well. His height is good and his body length is a little longer than desired. His back line is well muscled. The rear croup is steep and the tail is a low set with good flag. The rear feet are a little east west but I think the gate was good on this dog. The rear legs are well muscled. The front legs are well under this dog with a good pro-sternum seen. The chest is deep and long. The front legs are straight and have adequate britches on the front and rear legs. The coat is very good with the exception of feathering on the ears.

Health: No significant health issues noted. A male with little or no risk of being a carrier of epilepsy.

Coat is very good. Ear furnishings and front leg feathering are a tad short. Recommend breeding to a bitch with normal Standard body length.

Health: None

Evaluation Report Form **Yes** No Evaluated by K Crowley BC

Approved for Breeding - Yes Not Approved Y N

Reasons/Comment This dog meets the requirements for breeding.
